Call for Framework Agreement for selecting a company to produce videos for 2018-2021

1. Title of the agreement

Call for Framework Agreement for selecting a company to produce videos, as part the delivering of the EURO CITIES annual work plan for social inclusion financed by the operating grant EaSI for the time 2018-2021.

2. Background

EURO CITIES is the political platform for major European cities. We network the local governments of over 140 of Europe's largest cities and more than 40 partner cities that between them govern some 130 million citizens across 39 countries.

Among other priorities, EURO CITIES and its members are committed to implementing the European Pillar of Social Rights by tackling the causes of social exclusion, eradicating all forms of discrimination and ensuring equal opportunities for all. The EURO CITIES Social Affairs Forum (SAF) supports exchanges of experience and know-how among cities pertaining to these goals.

These activities are supported by the European Commission under the programme for Employment and Social Innovation (EaSI).

Further information about the network can be found on the EURO CITIES website www.eurocities.eu

3. The tender process

The purpose of competitive tendering for awarding this agreement is two-fold:

- to ensure the transparency of our operations according to European funds financial rules;
- to select the external company, based on the best quality/price ratio, with which we will work through single tender procedure for the period 2018-2021.

4. Objective and scope

EURO CITIES requires editing, and video production services to assist in the implementation of EURO CITIES EaSI work plan for the time in 2018-2021.

5. Tasks to be performed by the contractor

The producer/production company will be expected to produce videos that can convey and represent the spirit of the project.

For each video, all the relevant background materials will be provided by EUROCITIES and deadlines agreed.

6. The functioning of the Framework Agreement

Deliverables and individual projects will be contracted out through single tendering between EUROCITIES and the external company/contractor chosen. The number, types and economic value of single tendering will be decided during the year, depending on the delivering of the EaSI work plans for the years 2018-2021.

It should be noted the award of the Framework Agreement will not determine an automatic right to work with EUROCITIES. The awarded company will still have to submit a good quality/price rate offer under each single tender.

EUROCITIES retains the right to reject the proposal made under the single tendering if it will not meet the good quality/price ratio as specified by the EUROCITIES call for single tendering.

In the case in which the implementation of the EaSI work plan will not required services from external company, there is no obligation for EUROCITIES to issue single tender for services.

7. Place of performance of the contract

All tasks are expected to be performed at the contractors' premises.

8. Timetable of the tender

This Framework Agreement will be signed under Belgian law and it will remain valid for the period 2018-2021.
