

EUROCITIES - on the way to COP 21

As nations are expected to agree a global climate deal this December in Paris, EURO CITIES is working hard to ensure that cities are properly accounted for in any agreement. Our cities are leaders in the fight against climate change, with the potential to make a significant contribution to reducing greenhouse gas emissions. In the run up to COP 21, we are keen to ensure local experience and expertise has a role to play in reaching the global targets. This roadmap sets out how we are getting involved in a series of events to make the case for urban solutions.
