IMPACTING ON CITIES

## HOW DO WE WORK

- Connecting cities across Europe to network, exchange and learn from one another
- Connecting urban issues across the policy agenda at local and European level
- Connecting your work to the daily lives of a quarter of Europe's population

# CONNECTING URBAN

- 3 out of 4 people in Europe live and work in urban areas. Cities are drivers of Europe's economy, frontline managers of social inclusion and key players in climate action.
- Cities are the key to Europe's objectives for smart, sustainable & inclusive growth. If we don't get it right in our cities, we won't get it right at all.
- City-smart EU policies, sensitive to the needs of our urban areas, will enable and empower cities to deliver results that benefit all.
- Well-performing cities benefit their surrounding areas, driving growth & innovation in our regions as well as Europe's overall competitiveness.

# HOW CAN WE WORK TOGETHER

- **SHARING EXPERTISE** on the urban dimension of EU policies, their impact on the ground and the challenges and opportunities facing Europe's cities.
- **STRENGTHENING LEGITIMACY** As the level of government closest to the citizens, we are your natural partners in better connecting the local and the European.
- **SECURING VISIBILITY** for our shared priorities and for the political leaders driving change.
