City of + Vienna
Vienna is special.

Goals of EcoBusinessPlan Vienna

**Improvement of environmental situation,
by a better performance of enterprises and
industries.**

Reduce environmental impacts.

Integrative and preventive environmental protection.

Better relationship between enterprises and authorities.

Stimulation of de-coupling economic growth from resource
consumption and environmental damage.

Contribution to the sustainable development of the City of Vienna.

The Idea of Partnership

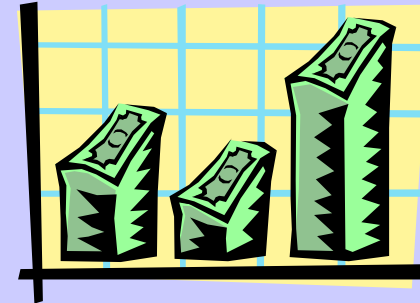

- Vienna: all stakeholders
- Between the participating enterprises
- Vienna and other cities

Focusing as
**Municipal
Department on the
Environmental
Protections** on
Viennese companies
means to give
answers to their
most important
question:

3 Principles of EcoBusinessPlan

environmental
protection pays

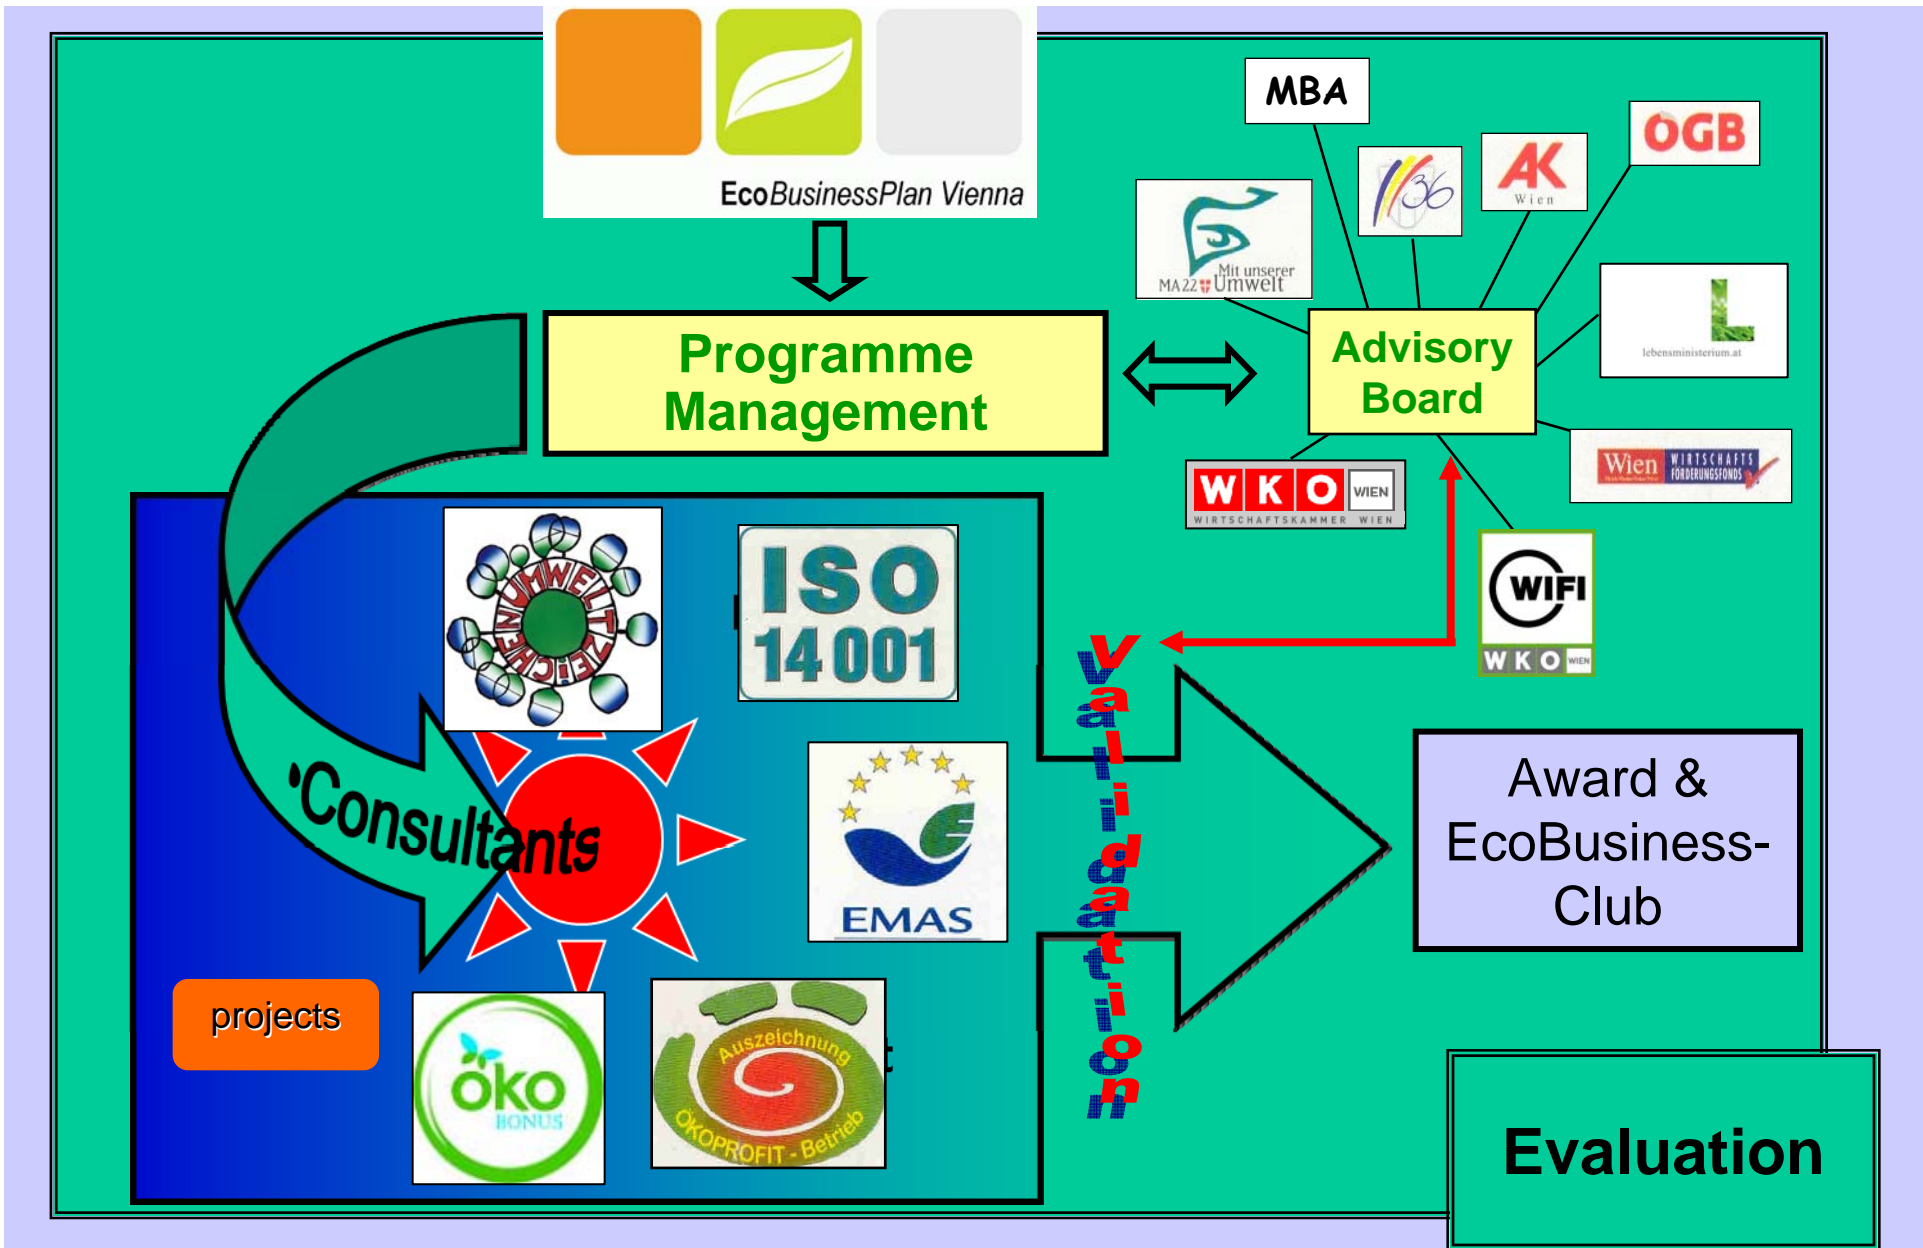

Bring all partner
together

Lead them to continues
improvement

- 20.740 hot –air balloons

• Result
1998 – 2011
907
Businesses

- 1,51 times the Ernst-Happel-Stadion

2.403.500	m ³ tap water
7268,7	t hazardous waste
121.311,1	t non-hazardous waste
123.189,1	t CO ₂
241,3	GWh energy
90,2 Mio.	Transportation kilometers
82,1 Mio.	EUR savings operating costs

- 2.252x trips around the world

- consumption of 93.050 Viennese households/a

Controlling Instruments

■ External Evaluation

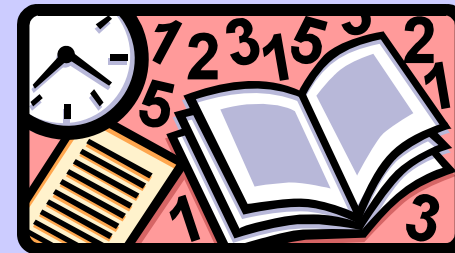

yearly report:

- standardized interviews
- statistics of database of environmental measures

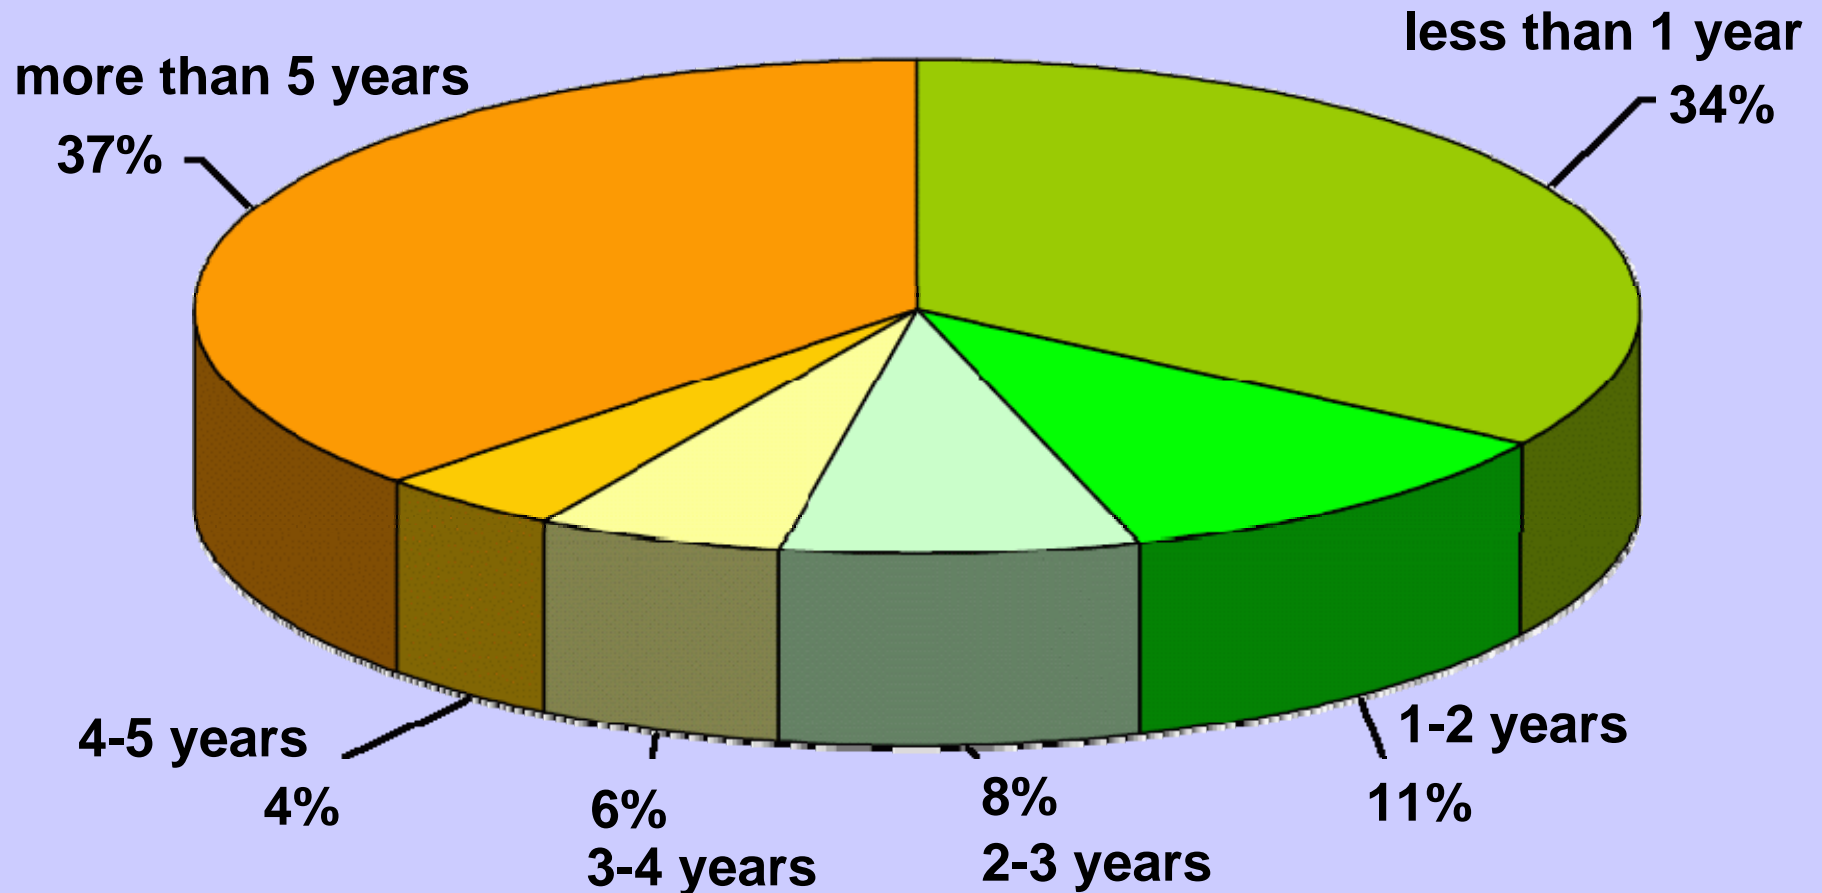

- ➔ benefit for the environment
- ➔ consumer satisfaction
- ➔ cost accounting + results accounts

■ Advisory Board

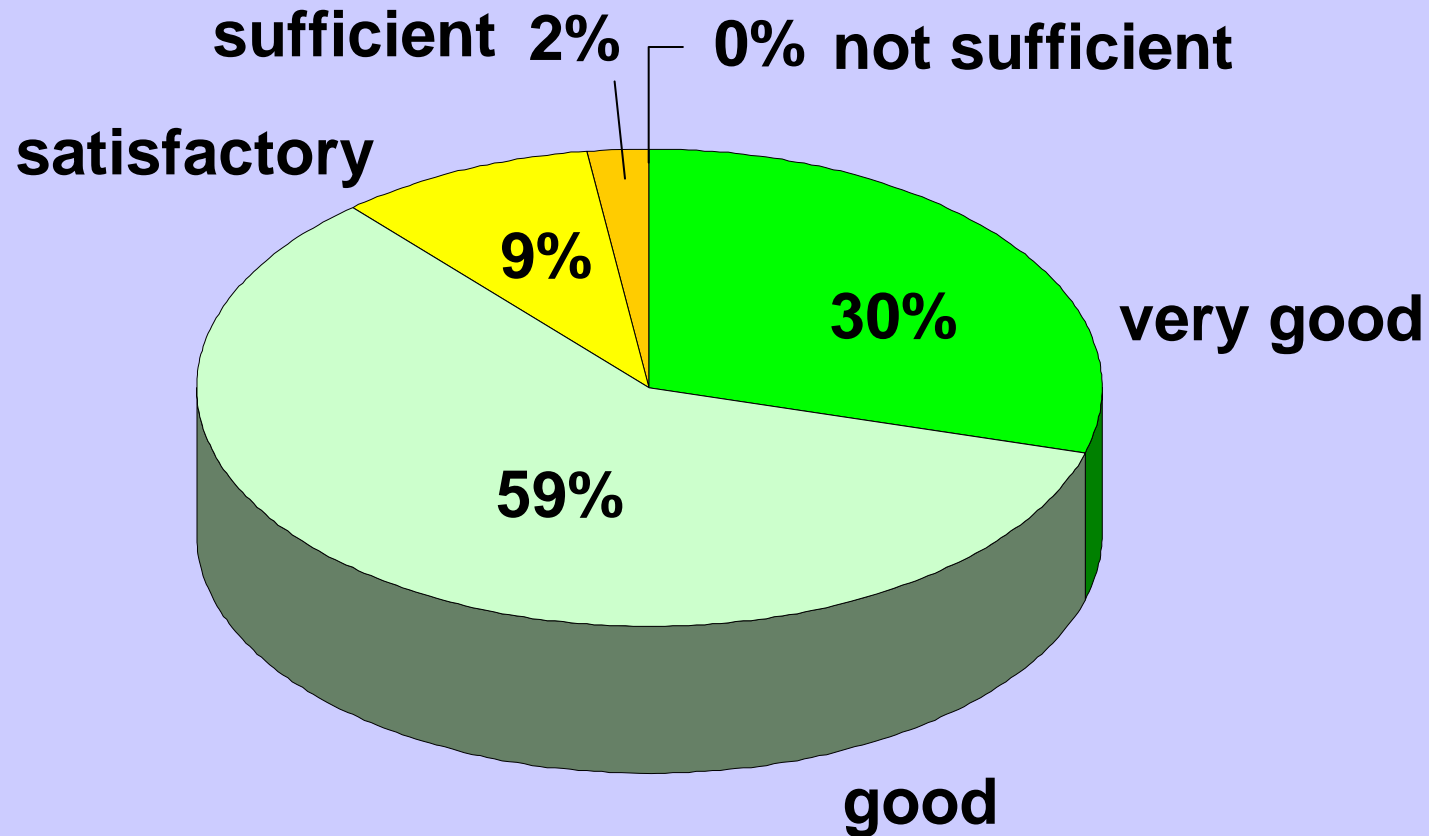

■ Programme Management

Evaluation: Return on Investment

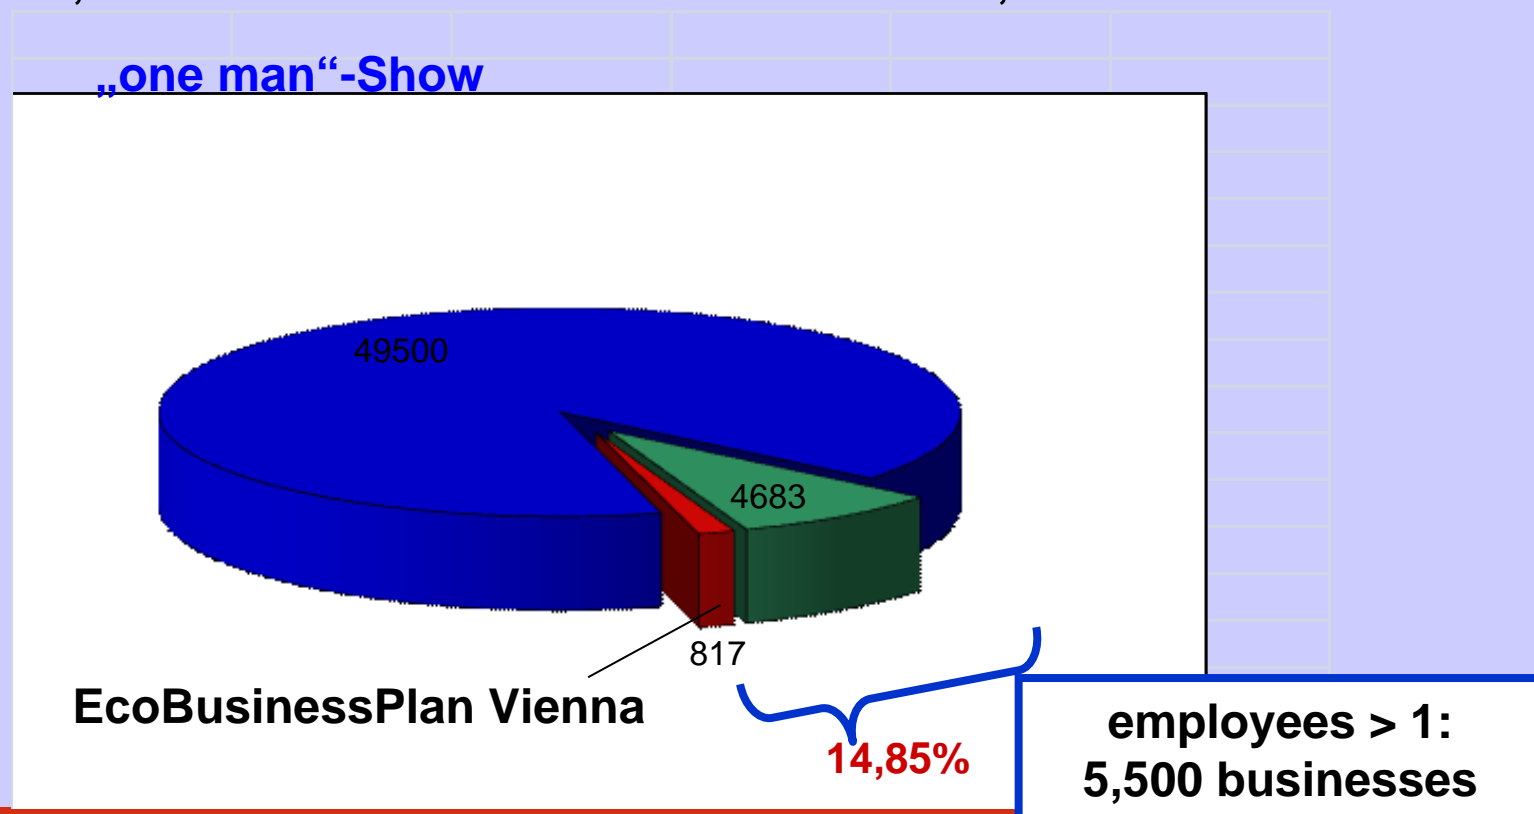

Evaluation: Valuation of Companies

Number of Businesses EcoBusinessPlan Vienna (1998-2009)

85,000 Viennese Businesses → 55,000 active

Number of Businesses

EcoBusinessPlan Vienna (1998-2010)

We reached more than 45 % of the Viennese goods producing companies with more than 100 employees

Subsidies - Money Multiplication?

Public

- Direct + indirect subsidies
- Programme independent resources

Companies

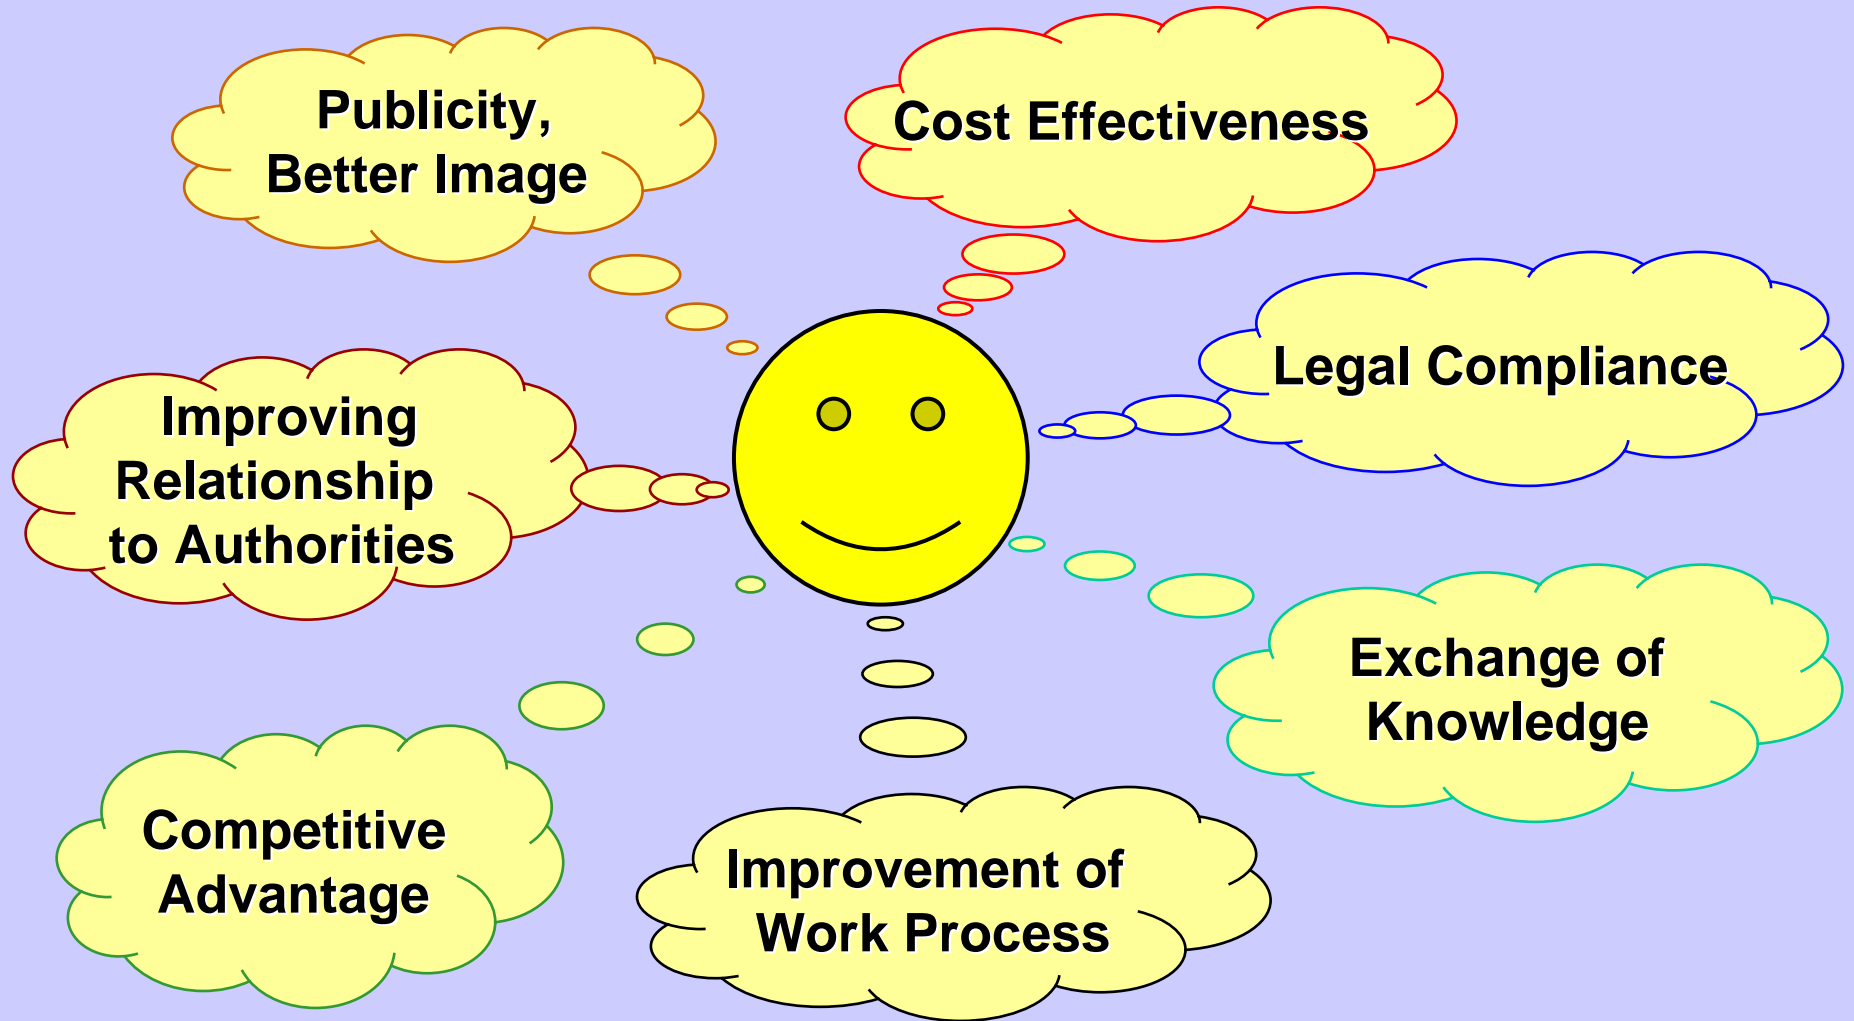

- Financial investments
- Time resources
- Participation fees
- Savings

Multiplier Effect of public expenses:

1:5

The Company's Benefit

Dissemination of Results

- Győr (Hungary)
 - Durres (Albania)
 - Chennai (India) + Athens (Greece)
 - Adriatic Region
 - Cork (Ireland)
 - UNIDO - India
- starting 2010:
- Nagoya (Japan)

Dissemination of Results

- **EUROCITIES: working group *Greening the Local Economy***

EUROCITIES is the European network and lobbying group of Europe's major cities. Vienna is chairing the working group *Greening the Local Economy*. The aim is to exchange information on strategies, instruments and tools for improvement of environmental performance in business, particularly in small and medium sized enterprises.

Members of the working group are:

Belfast, Genoa, Helsinki, Leeds, Munich, Nantes, Newcastle, Oslo, Sheffield, Stockholm, Tampere, Vienna

Besides all that we hope we will never forget:
