CONNECTING URBAN

- 3 out of 4 people in Europe live in urban areas. Cities are drivers of Europe's economy, frontline managers of social inclusion and key players in climate action.
- Cities are the key to Europe's objectives for smart, sustainable & inclusive growth. If we don't get it right in our cities, we won't get it right at all.
- City-smart EU policies, sensitive to the needs of our urban areas, will enable and empower cities to deliver results that benefit all.
- Well-performing cities benefit their surrounding areas, driving growth & innovation in our regions as well as Europe's overall competitiveness.

WE FOCUS ON

- Cities as drivers of quality jobs and sustainable growth
- Inclusive, diverse and creative cities
- Green, free-flowing and healthy cities
- Smarter cities
- Urban innovation and governance in cities

HOW DO WE WORK

- Connecting cities across Europe to network, exchange and learn from one another
- Connecting urban issues across the policy agenda at local and European level
- Connecting cities directly with EU level policy making to develop and deliver more joined up policies through an EU Urban Agenda
